

VISUAL IDENTITY SYSTEM OF SLOVENIA'S PRESIDENCY OF THE EUROPEAN UNION (PEU) IN 2008

It is recommended that the colour key be used as a reference when creating design solutions of specific applications by using primary colours. Variations should be minimal. Colours should be used in accordance with the key.

Quick Guide

Slovensko predsedstvo EU 2008

Blue mono-colour version

Firstly, we must stress that all applications must pass the compliance procedure in the design stage and before or after realisation. Without certification, final products will be deemed unfit

The principle guideline for all application users is the following: never use substitutes, either with fonts or graphic elements or colours. It is easier, faster, cheaper and appropriate to download the relevant templates in electronic form that are available at www.eu2008.si or to contact: valerija.mencej@gov.si or i@rkko.si

Circular inscriptions

Note: All versions of the applications of the PEU08 visual identity system must be certified in the implementation procedure.
